

Deployment diagram - Benchmark environment (Monolith)

Google Cloud Platform

VPC Network
(terraform: google_compute_network)

Load Testing Subnet
(terraform: google_compute_subnetwork)

Load Generator VM
(google_compute_instance)

Apache JMeter

HTTP
port 5000

Application Subnet
(terraform: google_compute_subnetwork)

App VM
(google_compute_instance)

Docker Runtime

Monolithic Image
Search Application
(Docker Container)
